

BANK AFTER THAT \$700,000

Attachment for the Full Amount Is Issued Against Alvord.

SUPREME COURT ACTION.

Wife of Defaulter Still at Her Home in Mount Vernon.

Justice Lawrence, of the Supreme Court, this morning issued an attachment for \$700,000 against the property of Cornelius L. Alvord, jr., the First National Bank defaulter.

The attachment was granted on the grounds that within the past six years the defendant had converted to his own use funds of the bank.

The police of Mount Vernon, who are co-operating with Capt. McCusky, said this morning that the situation was unchanged.

Mrs. Alvord is still at her home, and some relatives are with her.

Lawyer Fisher A. Baker, of Peabody, Mass., is the attorney for the First National Bank refused to say what property had been found or to answer any questions bearing on the Alvord case.

There was a conference at noon between Lawyer Baker and Vice-President Hines. While the two were speaking Chief of Detectives McCusky arrived and was shown into Mr. Hines's office.

MILLIONAIRE RICE POISONED; CHARGE OF MURDER TO BE MADE.

(Continued from First Page.)

lin, in the presence of Dr. Hamilton Williams, upon a body said to be that of William Marsh Rice, I took away certain organs from the said body and submitted them to analysis, with the results detailed below. On Sept. 2 I called at Blount's undertaking establishment, in Fourth avenue near Twenty-sixth street, and there received from Mr. Potter a sample of embalming fluid, which I also analyzed. This embalming fluid contains besides formaldehyde, the following mineral ingredients:

Potassium, sodium, zinc and aluminum, sulphuric acid, arsenic acid and chlorin. These are probably combined in making the liquid in the form of sodium arsenite, zinc chloride and aluminum chloride. The analysis of the stomach and of the intestines for vegetable poisons has given negative results.

Arsenic in Stomach.

The analysis of the stomach, of the intestines and of the kidneys for volatile poisons fail to show the presence of any foreign substance other than formaldehyde, a constituent of the embalming fluid mentioned above.

The analysis of mineral poisons referred to below has not yet been carried to the point where zinc would appear. That metal may be present.

The stomach was found to contain arsenic in notable quantity and an unweighable amount of mercury.

The presence of the arsenic in this and the parts mentioned below would be accounted for if the embalming fluid used a sample of which I analyzed, and been used in preserving this body. The analyses were found to contain both arsenic and mercury.

The quantity of mercury present in the sample examined was found to be 0.001 gram in 20 grains of tissue, equivalent to 14.00 grains per ounce (of 480 grains). The kidney contained arsenic and mercury also.

The quantity of arsenic has not been determined. The quantity of mercury present and the sample examined was found to be 0.001 gram in 167 grains of tissue, equivalent to 25.000 grain per ounce.

Poisoned Days Before Death.

I would infer from the very small quantity of mercury found in the stomach and the relatively large amount found in the intestines, and particularly in the kidney, that that metal had been introduced into the body during the life of the deceased, several hours, possibly days, previous to his death.

Respectfully submitted,
Signed, R. A. WITTHAUS.

McCusky Not Surprised.

Chief of Detectives McCusky, when he heard the result of the analysis said: "That does not surprise me in the least. I expected it from the start."

He refused to talk of the case further, but hurried away from the office.

Rice Case in Brief.

William Marsh Rice, the eccentric millionaire, died at his home, 600 Madison avenue, on Sunday, Sept. 23.

On Monday, Sept. 24, two checks, for \$100,000 and \$250,000, were drawn by Rice and cashed at the Fifth Avenue Trust company and both were certified.

Patrick, president of the Fifth Avenue Trust company, was arrested on the charge of having cashed the checks for the benefit of the Rice family.

Charles F. Jones, the valet, answered that the check was all right; that he had cashed it for the Rice family.

Patrick declared that the checks given him were for the benefit of the Rice family.

Coroner Hart held a conference with the police and the Rice family.

What Patrick Says.

A reporter for The Evening World called on Patrick immediately after the report was made known, and told him that Jones had given out the Rice family.

Patrick declared that the checks given him were for the benefit of the Rice family.

Coroner Hart held a conference with the police and the Rice family.

What Patrick Says.

INDIAN CHIEF CAUSED PANIC.

His Yells Roused Brooklyn Flats in Early Morning.

Love played havoc with the barbaric soul of Tom Ho, a proud chieftain of the Sioux Indians.

For the sake of a pretty girl he travelled from North Dakota to Brooklyn.

He failed to meet her, and early this morning, after scaring the tenants of a apartment house by war-whoops and gory dances, he landed in the Ninth avenue police station.

Tom Ho is also known as Deerfoot. He is 6 feet tall, like a deer, with coal black eyes and long hair tumbling down his shoulders and crowned with a cowboy's slouch hat.

He arrived in Brooklyn from Bismarck, N. Dak., with a band of Sioux Indians, to take part in the Bklyn. Carnival. He met a Brooklyn girl, who he loved, and went to return and wed her when he had saved enough money.

He arrived in New York yesterday with pockets bulging with greenbacks and gladness filling his soul. But he drank firewater and finally forgot the address of his charmer. He could only remember that she lived on Madison street, and accompanied by Triffo, proprietor of a saloon at Broadway and Decatur street, and Thomas Franklin, 141st Street, he went looking for her.

He got the outside door open and disappeared in the darkness of the night. He was seen by a woman who lived in the building, and she called the police.

Then arose a succession of howls that startled the neighborhood. He evidently had been trapped.

BISCHOFF ON HASCALL CASE.

Justice Makes a Statement in Regard to Divorce Decree.

Justice Bischoff, who granted the decree in the divorce case of Judge Theodore F. Hascall against Judge Theodore F. Hascall, was seen today by an Evening World reporter.

He said that the referee had sent the report to him Thursday morning, and it had been read the same as the reports in other cases. After he had signed the decree he gave it to the clerk.

He said that the date of the decree was altered from Oct. 25 to Oct. 26. He did not credit it. If a change was made it was likely, he said, that the clerk had made a mistake. The story that the case was suppressed was ridiculous.

Assistant District Attorney Unger was at the County Court House this morning at the instance of the District Attorney to examine the papers in the Hascall divorce case.

"The District Attorney," said Mr. Unger, "believes that Justice Bischoff has been misled, and sent me to investigate the case."

Mr. Unger declined to express any opinion on the question.

The decree, it is said, was not filed in the County Clerk's office until the morning of Oct. 26.

The decree now bears the date Oct. 26. The last three lines of the typewritten caption, it is said, were rubbed out and other lines typewritten over them. The original words in some places are visible and in others too indistinct to be deciphered. The date "26" is written in with pen and ink.

Deputy County Clerk Fairbank said today to an Evening World reporter: "The date is in exactly the same condition now as it was when I got it. If there was any alteration in the date, I know nothing about it."

As a matter of fact, it looks simply like a clerical error. I cannot see what any one would have to change the date to a day later than that on which the decree was actually signed."

Deputy County Clerk Fairbank said today to an Evening World reporter: "The date is in exactly the same condition now as it was when I got it. If there was any alteration in the date, I know nothing about it."
